Application&Features:

The versatility used in the design of the Onion Tank, indicates the store industrial water, fire water, rainwater harvesting, irrigation water, concrete mixing water, slope green water, sewage water storage, oil well cementing, diesel oil, aviation fuel and food oil.

Following field also can be use:

- Agricultural, humanitarian aid
- Public works and civilian rescue organizations
- Potable water storage
- Mining
- Grey water and sewage storage
- Fish hatcheries
- Rain water collection
- Drilling and industrial water treating
- Spill recovery
- Fire fighting

Square Tank Features:

- Self-supporting - no frame or parts to assemble.
- Quick setup and Dismantle time.
- Unique flotation collar - no inflation required.
- Low maintenance, easy to clean and repair.
- Heavy duty construction for durability.
- Folds up, for easy compact storage
- High tensile and tear strength
- Does not leach plastic taste into water.
- Self inflating and pressure draining
- Resistant to hot and cold temperatures
- Resistant to microbial attack
- High Frequency Welding, Hot Wind Welding
- Taps and fittings included
- Puncture and Abrasion resistant
